

CUNY RISING ALLIANCE

Demand free, high-quality education for all CUNY students.

A college education is the surest path to economic opportunity, intellectual fulfillment, and personal growth. It's a critical public investment and a prerequisite for narrowing inequality. For a half-million students a year, the path to a better life starts at CUNY—The City University of New York.

But CUNY tuition has increased 35% in the last six years and the quality of a CUNY education is at risk. After years of underfunding, CUNY is in danger of becoming an institution that reinforces economic and racial disparities.

CUNY Rising is advocating for a Students' Bill of Rights for ALL New Yorkers.
