

NYC CLC-NYCOSH 2013 SAFETY & HEALTH SERIES

Ergonomics in Construction

Ergonomics hazards in construction work – not generally thought of as a significant danger -- result in tens of thousands of debilitating, crippling injuries each year. **Scott Schneider, Safety and Health Director of the Laborers International Union**, one of the foremost authorities in this field, will discuss ways to significantly reduce or eliminate the risk of chronic pain and strain caused by constant lifting and carrying of heavy materials, working in awkward positions and repetitive motions. In addition to learning about ergonomics, participants will engage in activities to help them convey information on ergonomics to their members.

**Thursday, December 5, 2013
10:00am – 1:00pm
UAW Region 9A
256 W.38th Street, 12th Floor
(between 7th & 8th Avenues)
New York City**

Presented by:

Scott Schneider, Director of Occupational Safety and Health,
Laborers International Union of North America (LIUNA)

Sponsored by:

**The New York City Central Labor Council
The New York Committee for Occupational Safety and Health (NYCOSH).**

To register, please complete the form below and fax to NYCOSH: (212) 227-9854
