

Join Us on the Picket Line To Support the Workers at The Fountains!

The employees at The Fountains work hard to care for the residents who live at the facility. For over a year Local 338 RWDSU/UFCW has been attempting to negotiate a fair Union contract with the company. However, instead of bargaining in good faith, the Fountains has responded by:

- Demanding "flexibility" to raise the cost of the workers' health insurance
- Spreading misinformation about Local 338 RWDSU/UFCW

The workers have been very patient but the Fountains is not negotiating in good faith. Join us for a picket line outside of the facility to show management at the Fountains and the public that the workers deserve fair treatment and a fair contract.
