

HEY VERIGREEDY, We Need GOOD JOBS & Customers Need FiOS.

We're fighting for good jobs building and servicing FiOS, and properly serving copper network customers.

Yet instead of building FiOS throughout its footprint, which would create good jobs, Verizon wants to gut our job security. And while they're at it, they're aiming to slash our pensions and send our health care costs skyrocketing.

In the last five years, Verizon piled up \$28 billion in profits and paid its top executives \$249 million dollars – a quarter of a billion dollars. Verizon can afford to build out FiOS AND preserve good jobs.

Send Verizon a message: We need good jobs and a fair contract! Build FiOS for all!

MASS RALLY

**Saturday, July 25th
11:00am
Verizon HQ
140 West Street**
